

VINOTH NAGARAJAN

AI TRANSFORMATION & PROGRAM MANAGEMENT LEADER

GenAI | AI Automation | Digital Transformation | Enterprise Operations | Program Delivery

Chennai, India | +91-8220268342 | vinothnagarajan13@gmail.com | linkedin.com/in/vinonagg | github.com/vinonagg

PROFESSIONAL SUMMARY

AI Transformation and Program Management leader with 14+ years of experience delivering enterprise-scale operations, transformation, automation, analytics, and cross-functional technology programs across global environments, including Amazon. Proven track record of leading teams of up to 243 FTEs, partnering with Product, Engineering, Analytics and Operations teams, and delivering measurable improvements in productivity, quality, automation and operational performance. At Amazon, delivered a 23.12% YoY productivity improvement, reduced pre-submission accuracy defects by 35% through an AI-powered error-prevention solution, and improved automation success from 7% to 21%. Expanded hands-on Generative AI capability through formal training and portfolio development using Python, LangChain, OpenAI, RAG, FAISS, Neo4j, FastAPI and Streamlit. Targeting AI/GenAI Program Management and AI Transformation roles.

CORE CAPABILITIES

- **AI & Transformation:** AI Transformation & Adoption • GenAI / LLM Applications • AI Use-Case Identification & Prioritization • Intelligent Automation • RAG • Knowledge Graph RAG • AI Workflow Design • Business Value & ROI
- **Program & Delivery:** Program Management • Cross-Functional Technology Programs • Strategic Planning • Roadmaps • Program Governance • Executive Stakeholder Management • Risk & Dependency Management • Change Management • Agile Delivery • RCA/CAPA
- **Data & AI Technologies:** Python • LangChain / LangSmith • OpenAI API & Embeddings • FAISS • Neo4j • SQL • Pandas / NumPy • ETL & Data Pipelines • FastAPI • Streamlit • REST APIs
- **Analytics & BI:** Amazon QuickSight • Power BI • Tableau • Executive Dashboards • KPI Reporting • Operational Analytics • Statistical Analysis • Predictive Modeling

PROFESSIONAL EXPERIENCE

AMAZON DEVELOPMENT CENTRE

Operations Manager | Sep 2022 – Dec 2025 | Scope: 35 FTEs • EU5/EU9 Marketplaces • Retail & 3P Delivery Programs

- Led cross-functional transformation and delivery programs spanning Product, Engineering, Operations and Business stakeholders, taking interconnected initiatives from ideation through execution, adoption and performance measurement.
- Directed a 35-person organization and established performance-management mechanisms, delivering 23.12% YoY productivity improvement against a 10% target.
- Designed and launched an AI-powered Error Guard solution using NLP-based rule logic and operational SOP integration, reducing pre-submission accuracy defects from 2.10% to 1.37% — a 35% reduction.
- Partnered with Technology teams to build the P0 Operations Intelligence Dashboard using Amazon QuickSight, enabling real-time input-metric visibility across global teams and reducing L3 team AHT by 1.2 hours/week.
- Led the 2024 Mapfire automation program with Automation and Business Analytics teams, improving automation success from 7% to 21% across EU5 marketplaces.
- Delivered a 2.10% YoY improvement in Retail/3P metrics coverage across EU5 marketplaces through targeted process-transformation initiatives.
- Built an automated onboarding and reporting mechanism for worldwide marketplaces, improving visibility into program adoption through recurring weekly and monthly reporting.
- Owned program roadmaps, stakeholder cadences, risk identification, RCA and executive governance across WBR, MBR and QBR forums.
- Led organization-wide change management across people, process and technology, delivering structured training that improved IT marketplace metrics by 0.83% MoM.
- Recognized with the Pinnacle Award, Spot Award and Rookie Manager Award for leadership and delivery impact.

OMEGA HEALTHCARE PVT LTD

Process Lead | Dec 2020 – Aug 2022 | Scope: 243 FTEs • US Medical Billing • B2B Outbound

- Directed large-scale service delivery across a 243-FTE organization, owning SLA, TAT, capacity, forecasting, quality and client-performance commitments.
- Led MBR/QBR governance with clients and senior stakeholders, translating operational trends into corrective actions and sustained performance improvements.
- Improved bottom-performing team quality scores from 84% to 96% through targeted process improvement and performance-management interventions.
- Rescued an at-risk client account from competitor migration through a targeted process-cleanup and service-improvement program.
- Mentored 6 Team Leads and 3 Process Coaches, strengthening leadership capability and succession readiness.
- Led RCA/CAPA initiatives across Quality, Training, HR and Workforce Management to resolve systemic performance issues.

VINOTH NAGARAJAN

AI TRANSFORMATION & PROGRAM MANAGEMENT LEADER

PROFESSIONAL EXPERIENCE — CONTINUED

ACCESS HEALTHCARE PVT LTD

Group Leader | Sep 2014 – Dec 2020 | Scope: 69 FTEs • US Medical Billing • B2B Outbound

- Directed service delivery and performance management for 60+ associates across quality, productivity, TAT, capacity and client SLA metrics.
- Led continuous-improvement initiatives using time-and-motion studies, associate feedback and structured process analysis.
- Delivered recurring performance and risk reporting to senior leadership, translating operational data into actionable improvement priorities.
- Progressed from SME to supervisory leadership within 12 months, demonstrating accelerated leadership development and operational ownership.

Q-TAT SOLUTIONS PVT LTD

Senior Executive – AR Caller | Sep 2011 – Sep 2014

- Managed physician billing claims, eligibility verification and claim prioritization within US healthcare revenue-cycle operations while consistently meeting productivity and quality targets.

SELECTED AI & DIGITAL TRANSFORMATION PORTFOLIO

AI-Powered Error Guard Tool

Technology: NLP • Python • SOP-Based Rule Engine • Automation

Designed and launched an AI-enabled error-prevention solution integrating NLP-based rule logic with operational SOPs to identify potential submission errors before processing; delivered a 35% reduction in accuracy defects.

P0 Operations Intelligence Dashboard

Technology: Python • ETL • Amazon QuickSight • Data Analytics

Engineered a Python-based ETL pipeline feeding executive dashboards, eliminating approximately 3 man-days/week of manual reporting for 35+ global managers and enabling near real-time operational metric visibility.

Mapfire Analytics & Automation Program

Technology: Python • Pandas • ETL • Automation

Led a cross-functional automation initiative using Python/Pandas ETL pipelines for operational analytics, increasing automation success from 7% to 21% across EU5 marketplaces.

Enterprise RAG & Knowledge Graph RAG Portfolio

Technology: Python • LangChain • OpenAI • FAISS • Neo4j • FastAPI • Streamlit

Built end-to-end GenAI applications covering document ingestion, chunking, embeddings, semantic retrieval and LLM orchestration; explored vector-based RAG and Knowledge Graph RAG using Neo4j.

CERTIFICATIONS

Generative AI Architect Program — Social Eagle • Business Analytics & Digital Marketing with AI — HCL GUVI / IITM-Pravartak • Google AI Essentials — Google • Agile Scrum Master — HCL GUVI / IITM-Pravartak • Program & Project Management — Amazon • Making Great Hiring Decisions (MGHD+) — Amazon

EDUCATION

Master of Computer Applications (MCA) — IVUPE, Bengaluru | 2011 • Bachelor in Computer Science (BSC) — VIT, Vellore | 2009

AWARDS & RECOGNITION

Amazon Pinnacle Award • Amazon Spot Award • Rookie Manager Award • Calm in the Eye of the Storm Award • Excellence in Retention Award
